

Underbool Primary School – A Little Bit of History

Who Came and never left.....?

The Education Department sent many female teachers to the Underbool district during our school's 100 year history and many found the love of their life, married a Mallee boy and settled in the district. We thank the Education Department because without them there would be a lot of lonely Mallee men!

The following is a list of staff who taught at the Underbool Primary School and married a Mallee Boy or girl in one case. Some taught at the school after marrying their Mallee Boy!! Many are still in the area, some moved away and come back now and then.
