Lisa's Chaplain Chats

Stress can destroy much more than just our physical health. Too often it eats away at our hope, belief, and faith. Charles F. Glassman

We have all have had times where our lives have overwhelmed us with pressure from different areas and with, what often appears impossible challenges. Sometimes it not big challenges but lots of constant small issues that need our attention that can lead to chronic stress. When this happens, we need to reflect on our lives and start prioritizing what is important. We need to remember who we are and what we are passionate about, what our purpose is and what brings us joy. When we are fully following our hearts we retain our faith and hope.

Koorie Education

Ben Parker has been at the school today enlightening the students about Koorie culture. Ben's classes were very interesting and there were lots and lots of questions. Please take the time to ask your children about what they learnt today as they were all very enthusiastic and will no doubt enjoy sharing this with you. We will be participating in NAIDOC Week (which is during the holidays) activities during this week to coincide with Ben's visit.
