

Maths Every Day

Monday

Make collections.

- Collect objects from the outdoors, like stones, leaves or twigs.
- Sort them into groups and count how many items are in each group.

How many items are there in your favourite collection?

Tuesday

Try measuring objects.

- Explore ways of measuring using sticks, foot prints or hand lengths.
- Measure the height of people in your family.

Who is the tallest? Who is the shortest?

Wednesday

Work out ways to measure ingredients for a recipe.

- Explore ways of measuring using a cup, a jug, a teaspoon and a tablespoon.
- If you have kitchen scales weigh different foods such as a box of flour, a bag of rice or some vegetables.

Put the things you have weighed in order from lightest to heaviest.

Thursday

Think of ways of moving with maths outdoors.

- Find ways to balance your weight with a friend on the seesaw
- How many jumps does it take to get from the park bench to the see-saw?

What other maths games can you play in the playground?

Friday

Find patterns.

- Try following a pattern someone else has started and continue the pattern on your own.
- Make a pattern using pebbles, pegs or pieces of coloured paper.

What patterns can you see around you?

Saturday

Stack building blocks.

- Build a tower as high as you can.
- Can you build a tower that is taller than you are?

What other structures can you make with building blocks?

Sunday

Seek out shapes.

- Start and finish a jigsaw puzzle.
- When you wipe down the table after a meal, talk about which side of the table is longer, shorter, what's its shape?

Can you draw some of the shapes you can see inside your house?
